Petitioner, Avante International Technology, Inc., a corporation of New Jersey, also known as AI Technology, Inc., having a principal operation at 70 Washington Road, Princeton Junction, 08550, County of Mercer, State of New Jersey, certifies that it is the assignee of the entire right, title and interest in and to the patent Application identified in the caption above by virtue of an Assignment from the inventors to Amerasia International Technology, Inc. recorded in the United States Patent and Trademark Office on April 22, 2002 at Reel 012830, beginning at Frame 0592, of parent Application No 10/127,793, now U.S. Patent 6,694,045, of which the present Application No. 10/769,930 is a continuation, and an Assignment from Amerasia International Technology, Inc. recorded in the United States Patent and Trademark

Office on May 16, 2006, at Reel 017626, beginning at Frame 0862, of the above-captioned Application Serial No. 10/769,930 and parent Application No. 10/127,793. Photocopies of the above-mentioned Assignments are attached to this Terminal Disclaimer as Exhibits A and B.

Petitioner hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-captioned Application which would extend beyond the expiration date of the full statutory term as defined in 35 U.S.C. §§154 to 156 and §173 of U.S. Patent No. 6,694,045 issued February 17, 2004. This agreement runs with any patent granted on the above-captioned Application and is binding upon the grantee, its successors and assigns.

In making the above disclaimer, Petitioner does not disclaim the terminal part of the term of any patent granted on the above-captioned Application that would extend to the expiration date of the full statutory term of U.S. Patent No. 6,694,045 as defined in 35 U.S.C. §§154 to 156 and §173, in the event that such patent: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. §1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant. This Terminal Disclaimer shall not be construed as an admission or as an acquiescence in the validity or correctness of any rejection that may be overcome by a terminal disclaimer or of any reason or reasons therefor.

I hereby certify that I have reviewed the evidentiary documents in the chain of title of the above-captioned patent Application, which documents are attached to this Terminal Disclaimer as Exhibits A and B, and that to the best of my knowledge and belief, title to the above-captioned Patent Application is in the assignee identified above.
